

Kevin's Disciplined Player System

Starting Bankroll

Recommended starting bankroll: \$200 – minimum exposure is \$26

This bankroll allows 4-6 shooters while giving room for recovery and pressing.

Table Entry & Base Bets

- \$6 Pass Line (always)
- Wait for point to be established
- Place \$6 on 6 and 8. If either 6 or 8 becomes the point, then don't place that number.
- Buy 4 and 10 at \$5 each
- No odds behind the Pass Line **YET!**
- Total exposure: ~\$26

Progression & Pressing

1. If 6 or 8 hits Press that number to \$12
2. If other hits Press it to \$12 too
3. Once both 6 & 8 are at \$12 **Any further hit on 6/8 funds Pass Line odds**
4. If 4 or 10 hits Use win to press it to \$10, then collect only from then on

Pressing Rules Summary

- Press 6/8 ONCE only from \$6 to \$12
- Press 4 or 10 ONCE only from \$5 to \$10
- Fund odds with winnings, never bankroll
- Once odds are at 2x, collect everything

Exit Strategy (For \$200 Bankroll)

- STOP LOSS: Walk at -\$120 (keep \$80 for next session)
- PROFIT GOAL: Walk at +\$100 winnings and \$200 starting bankroll (cash out with \$300)
- If you're even after 5 shooters, call it a day or scale down
- Optional: After +\$100, play one "fun shooter" with winnings only

Optional Adjustments

- If table goes cold, drop 4/10 and play just 6/8 + Pass Line
- If table gets hot, use winnings to increase odds to 2x sooner
- Keep all decisions simple and repeatable

Final Notes

- No junk bets: no hardways, no field, no hop bets
- Let the dice prove themselves before you give them more chips
- This is a system built to survive cold tables and profit from hot ones
- Press once, then collect. That's the "Kevin's Disciplined Player System"!
